

# Bio-Spear

Stop mold, algae, fungi, and bacteria produced stains, odors and discoloration in their tracks! Bio-Spear works on almost all surfaces including fibreglass, wood and steel.

**Bio-Spear** forms a highly durable bond with virtually any surface, working continuously, with just one easy application to provide an invisible biostatic protective film to prevent harmful bacteria, fungi, mold and mildew between cleanings.

Water based ■ EPA Registered ■ Odorless and colorless ■  
Protects a wide range of surfaces ■ Highly durable ■  
Non-toxic technology after drying ■ Prevents biofilm buildup ■  
Long term prevention of a wide range of microbial and algae growth ■ Non-leaching, mechanical method of efficacy ■ Can be wiped, sprayed, or misted on virtually any surface

*Be proactive with Bio-Spear.*
